## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with D. James Chung on 6/7/2006.

The application has been amended as follows:

Claim 16:

- In line 1, replace "The method recited in claim 16" with -- The method recited in claim 13 --.

### **REASONS FOR ALLOWANCE**

Claims 13-20 are allowed.

The following is an examiner's statement of reasons for allowance: claim 13 is allowed because of the prior art, either singly or in combination, fails to anticipate or render obvious, the method, including steps of fabricating a bonding pad on the bottom electrode layer, the bonding pad in contact with the substrate through the opening of the bottom electrode, the bonding pad and the substrate forming a diode. These features in combination with the other elements of the claim are neither disclosed nor suggested by the prior art of record.

Claims 14-20 depend from claim 13, so they are allowed for the same reason.
